# BOILER SERVICE & REPAIR

**Boiler Sales**

- Quality Name Brands
- Ancillary Equipment
- SCR Systems

**Fabricated Systems**

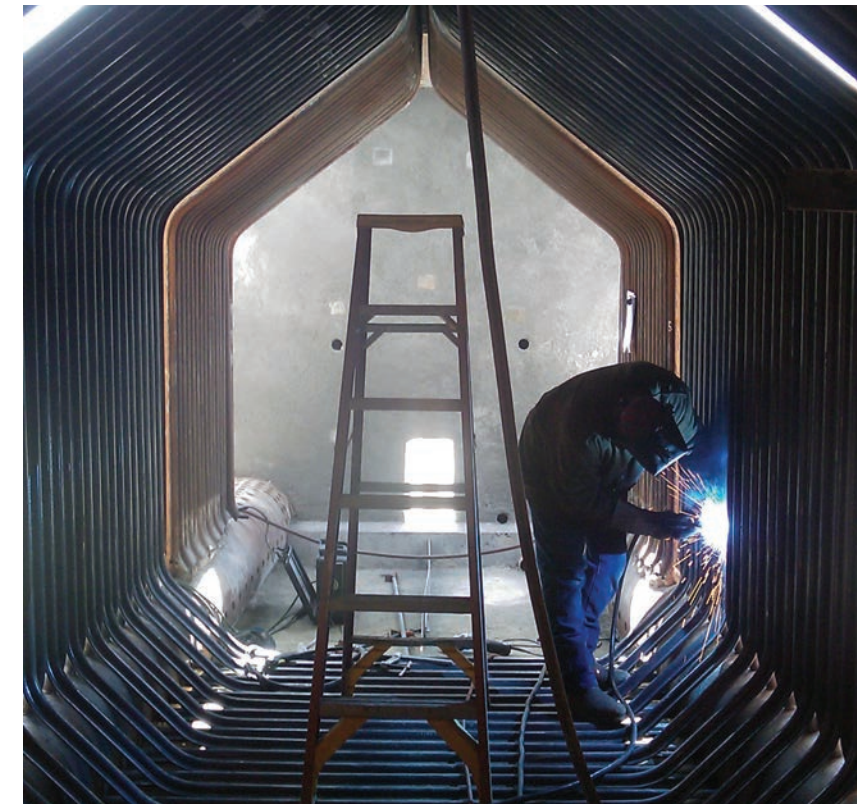

- Custom Design
- Condensate Systems
- Single Points of Connection
- Hot Water and Steam Boiler Skids
- Pumps and Heat Exchangers
- In-House Design/Build Team

**Instrumentation & Controls**

- Building Management System Interface
- Combustion Control Upgrades
- Continuous Emissions Monitoring
- Oxygen Trim Systems
- Supervisory Control and Data Acquisition

**Maintenance & Training Programs**

- Factory Trained Technicians
- Warranty Services
- Large Parts Inventory
- Authorized Service Center
- Upgrades and Retrofits
- Customer Site Training

**YOUR PREMIER SUPPLIER OF  
BOILERS, PARTS, SERVICE, TRAINING,  
AND CONTROL SYSTEMS**

R.F. MacDonald Co. offers service and maintenance plans to keep your equipment in top operating condition. Our factory trained and certified technicians are available for field service throughout California and Nevada, 24 hours a day, 7 days a week. Field services include troubleshooting, diagnostics, repair, installation, monitoring, and calibration.

Our vast parts inventory combined with our mobile and rental equipment ensures minimal downtime of your equipment.

We have over 125 fully stocked service vehicles utilizing wireless dispatching to provide timely and accurate service.

We provide in-house fabrication services for assembling boiler packages and custom systems into pre-piped and wired skids, simplifying field installation requirements.

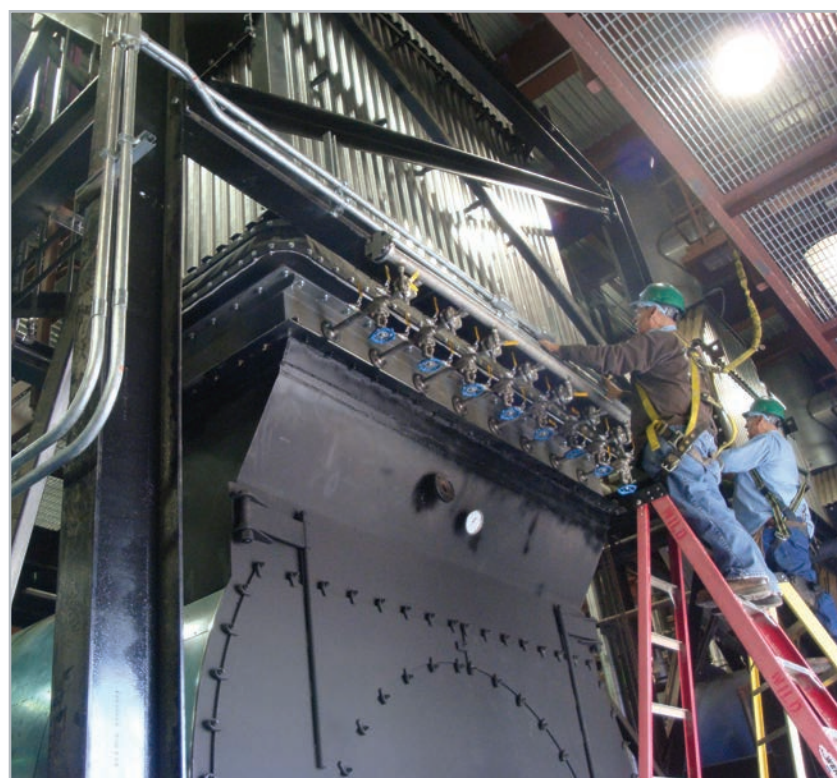

Contact an office near you to speak directly with a local representative who can personally assist you with your facility equipment requirements. We would be honored to serve your needs.

**FIELD SERVICES FROM OUR MANY LOCATIONS**

We employ a fleet of fully equipped service trucks which can quickly be dispatched to your job site to perform the following services:

- ▶ Combustion Adjustment
- ▶ Trouble Shooting
- ▶ Annual Inspections
- ▶ Refractory Repairs
- ▶ Emission Compliance Monitoring
- ▶ ASME and National Board Certified Boiler Repairs

**Installation**  
Full demolition and installation services in any location. Complete permitting and adherence to strict footprint requirements and schedules.

**General Engineering Contractors**  
Certified, classified, indemnified, and bonded single source contractor with vast skills for a wide range of application markets.

**Boiler Operator Training**  
A full schedule of classes throughout our service regions fulfill state requirements. On-site sessions offered for complete customized staff training.

**Air Quality Source Testing**  
NOx emissions guaranteed to meet local and federal air quality requirements for almost all makes of boilers with retrofit burners.

**Factory Trained & Certified Technicians**  
Our technicians are factory trained, certified, experienced, and competent for all models of boilers and burners we supply.

**Certified Welding Services**  
Experienced and certified pressure vessel welders for repairs, maintenance, and retubing services.

**Mobile & Rental Equipment**  
Boiler equipment and full mobile units help prevent down-time for emergency or planned off-line events.

**Instrumentation & Controls**  
Integrated systems with remote communications, automatic temp control, and energy management interfaces all from easy to use touch panels.

**Field Service**  
A wide range of scheduled and emergency services from dispatch locations throughout California and Nevada, for quick turn times.

**Assured Efficiency Program (AEP)**  
Preventative maintenance contracts for specific periodic inspections and service to minimize down time and maximize efficiency.

**Full SCR Systems**  
All types of ultra low NOx systems including urea, ammonia, and any new technology that enters the market.

**Parts & Accessories**  
A huge boiler parts inventory helps ensure minimal down time of your equipment and production operation.
